SECRET/ 25X1

2. Corment. The linsk-Janow airfield is located about 4 to 5 km

ENE of linsk-Mazowiecks.

The occupation
of the field is not known. From the description of the aircraft no
definite conclusions can be drawn as to their type. It is possible that
the planes are Yak-lls.

25X1

Corment. This information refers to Possas Lavice sirfield.
According to available information, the airfield has a runway which
is 1,600 to 1,700 meters long. So far, the occupation of the field
could not be determined. It is possible that the field is occupied
by a Folish fighter unit equipped with jet fighters. The description

of the jet planes observed indicates that they are Yak-15s.
